Location: **Stanford Graduate Community Center**  
750 Escondido Road,  
Stanford, CA 94305  
Fee: **Free**  
Language: Chinese

Meet the successful ladies behind the book "Women Executives in Silicon Valley". This book features the biographies of ten successful women entrepreneurs, all of whom are of Chinese decent, who have made their way to the top of the companies in Silicon Valley.

Among them are founders of successful startups, executives of high-tech giants, and professors who have ventured outside academia. They came from different origins: some are raised in the U.S., some are from Mainland China or Taiwan who first came to the U.S. for graduate school, some made their way through labor camps during the culture revolution and came out stronger than ever before.

Come and listen to their inspiring stories of hardship and success. Learn how they overcame the culture and gender barriers to become high-level executives of large corporations and founders of growing startups. Everybody is welcome, both men and women.
